# CareLoop Health

AI discharge coordination for community hospitals

Headquartered in Columbus, Ohio · Founded in 2022

# Problem

Community hospitals lose $4.1M a year to avoidable readmissions

Discharge planning is manual and takes 6 hours of nurse time per patient

# Solution

CareLoop automates discharge plans and follows up with patients for 30 days

Integrates with existing EHR workflows in under two weeks

# Market Opportunity

TAM $6.2B

SAM $1.1B

SOM $120M

1,800 community hospitals in the United States

# Traction

$1.2M ARR as of June 2025

14 paying hospitals

Revenue growth 180% YoY

3 pilots with regional health systems

Net revenue retention 112%

# Business Model

SaaS subscription: $85K per hospital per year

Gross margin 72%

# Competition

Epic

Cerner

Manual processes

We are the only solution with 30-day automated follow-up
